

Sanna Daqiq was born and raised in the Bay Area and attained her bachelors degree in biology and public health at UC Davis. She is currently working as a medical assistant at a community clinic that targets minorities, and is hoping to become a physician assistant soon. She has always been passionate about giving back to her community and helping those in need and thus devotes her time to organizations that do so. Sanna joined FITRAH because she was always looking for ways to help stop the cycle of incarceration and other risk factors among vulnerable youth through mentorship, and found that FITRAH was the perfect way to do so.
